Introduction

Most men fear being laughed and humiliated by a romantic prospect, but most women fear of death and rape.

— Gavin De Becker [Author]

True to this statement, women across the world in general and in India particular are often living under the grip of fear. They constitute half of the world's population. yet they are treated not as human beings but as mere objects or playthings. they are discriminated, ill-treated, harassed, assaulted, exploited, brutally raped, disrespected, humiliated, and so on.

Keeping this in view, the Governments are introducing a few acts such as Nirbhaya and Disha to protect and safeguard women from physical and sexual atrocities.

On 27th November 2019 a Nirbhaya like case repeated in Hyderabad. At 9:15 pm. Disha got a flat tire while she was returning from work on her scooter. She rang up to her sister and explained her situation. when she was standing alone, a group of four men offered their help but Disha denied it.

MOITIS, 100 100

Faint, illegible handwritten text in a South Asian script, likely Kannada, covering the bottom half of the page.

Poured pure alcohol and gutted down her through to keep her silent. later, they sexually assaulted and gang-raped her until she bled severely and lost consciousness. After seducing, they took her body under the bridge and burnt it.

This incident became an eye-opener for the Andhra Pradesh Government, the degree of crime deepened so terribly that it left a scare of fear in the minds of people. After this case, the Andhra Pradesh Legislative Assembly passed collectively the Disha Act, 2019 (Andhra Pradesh Criminal Amendment Law, 2019)

As a tribute to Disha, a veterinary doctor who is raped and murdered brutally, the Act provides the death penalty for offenses like rape, gang rape, and speeding up trials of such offense within 21 days. The Act visualizes the execution of investigation within 7 working days and trial in 14 days from the date of filing the charge sheet, for gathering sufficient evidence and the passing of judgment, within the time period 21 days.

Chief minister Jagan Mohan Reddy.

Informed that the unfortunate horror incident made him design an app that functions to protect girls and women in danger by alerting the police. Android users can download this application from Google play store, whereas

IOS users can download it from Apple App store. The registration on the application can be done via mobile Number. It also provides punishment for other offence like sexual assault and harassment against women and children and include Section 34 IPC, 354F, 354G, In India. penal code, 1860, which will define harassment in women, sexual assault on children, and aggravated sexual assault on children.

objective of Disha APP :

* To help the women and citizens in Emergency situation.

Features of Disha APP :

* It is integrated with with needful information like Nearby safety places, nearby police stations, Nearby hospitals and useful contacts. Disha contains Tracking safety feature for every user. It also has 'Track my travel' feature and selecting the same will not only guide the user in the correct route, But also enable police to track her. Police will start tracking the location only after the option is selected and no personal details are collected. Further, the App also alerts the about vulnerable locations @ Route.

Functioning of Disha APP :-

The user has to enter his/her mobile number, address, Alternative, and Emergency Contact number. Its SOS Button alerts the police control room besides sending a 40 second audio-video to the Disha Control room, which in turn will alert the nearest police station, which will alert the mobile team to rush to the location from where the distress call is made. Simultaneously, the caller will be contacted to know her situation and if there is no response, it is assumed that it is an emergency case. In case the caller says she pressed the button by mistake, no action will be initiated.

Reason for selecting the Topic :-

Chief minister Jagan Mohan Reddy said "that" he is on a mission to spread awareness about the app not just in the cities but even in rural areas. To do so a door-to-door awareness campaign should be taken up to explain the features of the app and help people download the same.

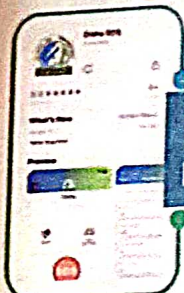

This clarion call has awakened me, made me choose the topic, and triggered me to be a responsible citizen. In spreading the awareness about his app especially being a woman, this is in fact the objective of this project.

Disha SOS Mobile App

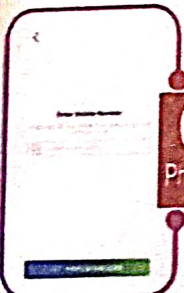

01 Install Download App from Google play & App Store (IOS) (Keyword: Disha SOS)

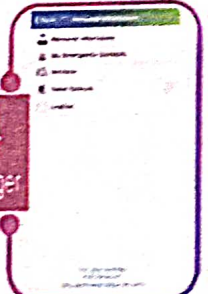

02 Disha App Registration Process of Disha App

03 Phone Num. Enter the 10 Digit Mobile Number to Receive OTP for Registration Process

04 Shake Trigger Enable handgesture option for Shake Trigger Feature for Sending SOS

05 SOS Service Press SOS button to send alert and get Police Assistance

06 Disha Police Control Room App will send location details to Control room . Victim Get Police Assistance

Other Features of DISHA APP

100 / 112 / 181

Findings and suggestions :-

It is alarming to know that more than eighty percent of the householders, selected for the study have about Dishq app. When a question is asked "how did they know?" the answer was instant that they have either heard from ward volunteers, Sachivalayams, and from other Government personnel.

But an unhappy and disappointing thing is that they about the app but couldn't install and but have it on their phones due to the non-availability of smartphone or due to lack of awareness on the advantages of the app.

The householders said that the volunteers and a few others have explained about even assisted them in installing the app. But later. But later due to reasons known to the householders a few have uninstalled the app to lack of data memory in their phones.

This has given an opportunity to create awareness about the app and its features, the advantages of having it get the app more well-explained to all the householders so that it may themselves get a feeling that they should install the application so that it may immensely help them in dire situation that comes all of a sudden. They were highly convinced and permitted to install the app. Let us all the features of the app are personally demonstrated so that its usage becomes easy for them in any dangerous situation. The householders profusely thanked for the humbleness shown during the survey.

A humble appeal to all others, especially women, is to work unitedly to create awareness, explain the multiple advantages of the app and that the app exists in the mobiles of each and every woman.
