DEPARTMENT OF COMPUTER APPLICATIONS

INTER DISCIPLINARY PROGRAM AY 2023-2024

INTER DISCIPLINARY PROGRAM ON 29-10-2023:

A Inter Disciplinary program is arranged by the Department of Computer Applications. M.PUSHPAVATHI LECTURUR IN COMMERCE.

An inter Disciplinary program focused on analytical skills, such as aptitude, combines insights and techniques from fields like cognitive psychology, education, data science, and behavioural economics to enhance students' problem-solving abilities and logical reasoning. This program emphasizes the development of core cognitive skills, such as pattern recognition, critical thinking, and quantitative analysis, while integrating tools from various disciplines to boost students' aptitude for analysing complex information. Participants gain a deeper understanding of how to approach problems methodically and efficiently, preparing them for diverse career paths in areas such as business, research, technology, and finance.
